## EXPERIENCE & PROJECTS

### Graphic Designer Intern | July 2019 - July 2021

Mhfictio | Warangal, Telangana

Designed and developed graphic elements, posters and banners.

### Project Manager and Web Developer Intern

Berlin-Benz Siliziummaschinen | London, UK

Project Manager - January 2021 to March 2021

Managed interns by assigning them tasks and checking their daily status. Solved queries of the interns and mentored them.

Web Developer Intern - November 2020 to December 2020

Contributed in developing the front-end of GripyourLife website from scratch, using HTML, CSS and Bootstrap.

### Graphic Designer Intern | January 2016 - Decemeber 2018

stuMagz | Warangal, Telangana

Designed posters and banners for the events conducted by stuMagz.

### Course Project | Line Following Robot

Designed and developed a line following robot as part of Mechatronics course project. The line following robot, moves on its own following a black line with the help of an IR sensor

### Course Project | Student Attendance System - Android App

Designed and developed a student attendance system as part of Mobile Application Development course project. SAS is an android application in which the students can view their attendance details and the faculty members can mark attendance to the students. Material UI library was used for the front-end and the back-end was built using Firebase

### Major Project | University Application using React Native

Designed and developed a university mobile application as part of my major project. In this application, students can view their attendance details, download notes and many other things. Faculty members can do things like marking attendance, checking their schedule, etc. Parents can check their children's performance and attendance details. React Native's UI Kitten Library was used for the front-end and the back-end was built using Firebase.
