EXPERIENCE AND PROJECTS

- 2019 - Present **MHfictio - Graphic Designer Intern**
I am doing my internship as a Graphic Designer at MHfictio in Warangal. I am responsible for creating and designing posters, banners for MHfictio
- 2020 - 2021 **Berlin-Benz - Project Manager**
I have worked as a project manager at Berlin-Benz, UK. I was responsible for mentoring and managing the interns in developing software applications
- 2016 - 2018 **stuMagz - Graphic Designer Intern**
I have successfully completed my Internship as a Graphic Designer at stuMagz - A Student Discovery Platform. I was responsible for creating and designing posters and banners for the events conducted by stuMagz.
- Course Project **Mechatronics - Line Following Robot**
Line following robot is a robot which will move on its own following a line with the help of an IR sensor.
- Course Project **Mobile Application Development**
I have designed a modern android application for student attendance system, in which the students can view their attendance and the faculty members can mark the attendance for the students. I have used Firebase for the back-end and Material UI Library for the front-end.
- Major Project **College Application using React Native**
I have designed a modern react native application for our university. The application has the separate screens for the students, faculty members and parents. I have used Firebase for the back-end.

EDUCATION

- 2017 - 2021 **Bachelor**
I am currently in my IV year of B.Tech in the field of Computer Science and Engineering at S R Engineering College, Warangal, India
- 2015 - 2017 **Intermediate**
I have successfully completed my Intermediate at Nava Vignana Bharathi Junior College, Warangal, India
- 2015 **SSC**
I have successfully completed my SSC at Vidya Niketan High School, Warangal, India
